

Calc Steps

Calc steps for constructing side by side box plots

- ① input data into L_1 and L_2 (STAT \rightarrow Edit)
- ② Stat Plot (and $y=$)
- ③ Turn on the modified box plot (without test) for 1: and 2:
- ④ In stat Plot 1, make sure X-list says L_1 .
In stat Plot 2, make sure X-list says L_2 .
- ⑤ Graph.

IF you want to find 5# summary (and more info)
Input data into L_1, L_2 etc.

① STAT \rightarrow Calc \rightarrow 1-var stats

② Newer calc:

a screen will show

List: L_1 (if you want data for L_2 put L_2 here)

Freq List: (blank)

then select calculate

Older calc:

a screen will show

1-var stat L_1

You need to add L_1 or L_2 depending on which data you want, then hit enter
